

# The Organizational Fitness Test © Results!

The results of this test may indicate that your organization could benefit from a Consultant to help increase your company's fitness level.

If you scored;

## **110 – 120    Top of Your Game**

Congratulations! Your organization seems to be working well. If adjustments are needed, they'll be minor. You should be very proud!

## **96 – 109    Rolling Along**

Most of the areas in your organization are in pretty good shape. You may want to use a consultant to help you focus on improving the fitness level in one or two areas.

## **81 - 95    On the Right Path**

Some areas in your organization are probably working well while others are not. A consultant is recommended to work with your company over a short period of time to get you back on track.

## **71 - 80    Fork in the Road**

This doesn't necessarily mean that your organization is new, but it operates as if it were. Your organization may be at a crossroads, and what you do at this point will determine future success. A consultant is recommended to work with you on an ongoing basis to help move your organization forward.

## **70 or less    Are Your Funeral Arrangements in Place?**

Your company is dying! I'm guessing there are all sorts of issues and problems that need to be addressed in your organization. You would definitely benefit from having a consultant work with your company over an extended period of time.
